## About the Asia Cloud Computing Association

The ACCA is the apex industry association that represents stakeholders of the cloud computing ecosystem in Asia.

Our mission: to accelerate the adoption of cloud computing through Asia Pacific by helping to create a trusted and compelling market environment, and a safe and consistent regulatory environment for cloud computing products and services.

Through dialogue, thought leadership, and public education, the ACCA provides a vendor-neutral platform to discuss implementation and growth strategies, share ideas, and establish policies and best practices relating to cloud computing.
